Parvez Ahmed

Senior Software Engineer | Frontend & Web UI

Bengaluru, Karnataka | +91 97065 19278 | amdpvz@gmail.com | linkedin.com/in/amdpvz | github.com/pvzamd

SUMMARY

Senior Software Engineer with nearly 5 years building large-scale, consumer-facing web applications in fintech and enterprise. Lead development of Alice Blue's Next.js website and TradeSchool, owning architecture, code review and releases. Strong in React, Next.js, Vue 3 and TypeScript; focused on pixel-perfect, accessible UI and Core Web Vitals; works daily with AI tools (Claude Code).

EXPERIENCE

Alice Blue Financial Services — Feb 2025 – Present

Senior Software Engineer

- Lead development of the Corporate Website and TradeSchool in **Next.js** and **React**: own the architecture, code review (~400 PRs merged) and production releases, and mentor junior developers.
- Delivered the website's 2026 redesign page by page and am redesigning TradeSchool from **Figma** (11 pages, **Tailwind 4**) on a shared component set; replaced **Material UI** with in-house components matched to its computed styles.
- Improved Core Web Vitals: deferred third-party tags (main-thread busy **343 to 18 ms/s**), fixed mobile CLS (~0.11 to 0), cut preloaded fonts from **653 to 150 KB**, built real-user INP attribution, and cut a calculator tap from **~4 s to under 0.2 s**.
- Built a library-free accessibility menu (text scaling, contrast modes, dyslexia-friendly font, read-aloud, reduced motion) and accessible forms with **ARIA** error states and focus management.
- Top contributor (37% of commits) to Rise, Alice Blue's **Vue 3** mutual-fund platform: built the IPO, goal-investing and ELSS flows, moved payments to **BSE StarMF 2.0**, and replaced ~140 ad-hoc API calls with a shared service layer.
- Shipped an embeddable **Vue 3** support-chat library for a vendor-maintained trading app: scoped styles, no global state, 9 languages, bundle cut from **765 to 228 kB**, and 170 test assertions run against the built package.
- Built SEO-first stock and IPO sections (**7,000+** pages with **TradingView** charts on a custom datafeed) and cut Google-reported 404s by **92%** (34.5k to 2.7k).

Software AG — Feb 2022 – Apr 2024

Software Engineer

- Built most of the card-based bots in a 50+ **Webex** bot catalogue on **webMethods**, with up to 20 actions each and **Adaptive Cards**.
- Refactored legacy **webMethods** code to **ES6+**, cutting workflow execution time by **40%**, webhook startup by **75%** and API transaction costs by **15%**.
- Built per-bot usage and error reports for Cisco from **MongoDB** logs in **Node.js**.
- Helped migrate **AppHub** from class-based to functional **React** components.

CrowInfo — Feb 2021 – Feb 2022

Web Developer (Internship)

- Built client web apps in e-commerce, automotive, education and logistics using **HTML**, **CSS**, **JavaScript** and **Vue.js**.

PROJECTS

- pnl-heatmap (npm package): Zero-dependency JavaScript library that renders GitHub-style daily P&L calendars, with ESM/UMD builds and CDN delivery.
- Dual-Hangman Game: Full-stack **Node.js** and **React** app deployed on **AWS EC2** with NGINX and PM2; built with AI-assisted development (Claude Code, Antigravity IDE).

SKILLS

Frontend: React, Next.js (App Router), Vue.js 3 (Composition API), Pinia, Tailwind CSS, Responsive design
Languages: JavaScript (ES6+), TypeScript, Semantic HTML5, CSS3
UI & Design: Component libraries, Design systems, Figma, CSS Modules, SASS/SCSS, Bootstrap, Vuetify, Material UI
Performance: Core Web Vitals (LCP, CLS, INP), web-vitals RUM, Chrome DevTools profiling, Lazy loading, Caching
Accessibility: WCAG, WAI-ARIA, Keyboard and focus management, Reduced motion, Text scaling
Backend & APIs: Node.js, Express, REST APIs, OAuth, Webhooks, Prisma ORM, MySQL, MongoDB
CMS & Data viz: Headless WordPress, TradingView Charting Library, ApexCharts, Highcharts, SVG charts
Build & Testing: Vite, Vitest, Headless Chrome (DevTools Protocol), Git, GitHub Actions, CI/CD
Cloud & AI tools: AWS EC2/S3, NGINX, PM2, Docker; Claude Code, Antigravity IDE (AI-assisted development)

EDUCATION

Master of Computer Application (MCA) | Tezpur University (Central), Assam — 2018 – 2021 | CGPA 8.04
Bachelor of Computer Application (BCA) | Gauhati University, Assam — 2015 – 2018 | CGPA 7.3
Diploma in Civil Engineering | Assam Engineering Institute, Assam — 2010 – 2014 | 66.86%
